Nxt Building Group Pty Ltd
9B Huntingdale Dr
THORNTON NSW 2322

Notice of Determination of a Development Application
issued under the *Environmental Planning and Assessment Act 1979*
Sections 4.16, 4.17 and 4.18(1)(a)

Development Application No: DA/438/2023
Applicant: Nxt Building Group Pty Ltd
Property Address: Lot 36 DP 10650
23 Pacific Avenue, ETTALONG BEACH NSW 2257
Proposal: Dwelling
Determination: Approved
Determination Date: 15 May 2023

Date from which this consent operates

In accordance with Section 4.20 of the *Environmental Planning and Assessment Act 1979*, this consent becomes effective and operates from the date of this notice being 15 May 2023.

Consent to lapse on

15 May 2028

Imposition of conditions

Subject to the provisions of Section 4.17 of the Act this Consent has been granted subject to conditions annexed to this consent.

Review of Determination

Subject to provisions of Sections 8.2, 8.3, 8.4 and 8.5 of the Act the applicant may make an application seeking a review of this determination, providing it is made in time for Council to determine the review within six (6) months of this determination.

Right of Appeal

Sections 8.7 and 8.10 of the Act confers on an applicant who is dissatisfied with the determination of a consent authority a right of appeal to the Land and Environment Court within six (6) months, from the date of determination.

On behalf of the consent authority
David Farmer
Chief Executive Officer

Per:

Shane Smith
BUILDING SURVEYOR

1. PARAMETERS OF THIS CONSENT

Approved Plans and Supporting Documentation

- 1.1 Development must be carried out in accordance with the following approved plans and supporting documentation (stamped by Council), except where the conditions of this consent expressly require otherwise.

Architectural Plans by: McDonald Jones Homes

Drawing	Description	Sheets	Issue	Date
209820	Proposed Dwelling	1-22	9	13 February 2023

In the event of any inconsistency between the approved plans and the supporting documentation, the approved plans prevail. In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

Note: an inconsistency occurs between an approved plan and supporting documentation or between an approved plan and a condition when it is not possible to comply with both at the relevant time.

- 1.2. Carry out all building works in accordance with the National Construction Code Series, Building Code of Australia, Volume 1 and 2 as appropriate.

2. PRIOR TO ISSUE OF ANY CONSTRUCTION CERTIFICATE

- 2.1. All conditions under this section must be met prior to the issue of any Construction Certificate.
- 2.2. Submit to Council as the Roads Authority an application for a vehicle access crossing including payment of the application fee.
- 2.3. Submit to the Accredited Building Certifier a report approved by a suitably qualified consultant demonstrating that the development complies with the design parameters outlined in the current edition of the Australian Building Codes Board (ABCB) *Construction of Buildings in Flood Hazard Areas* Standard or compliance with the Building Code of Australia as appropriate for the development. The following flooding characteristics are applicable to the development.
1. All building materials used or located below RL 5.29m AHD must be of a type to withstand the effects of immersion.
 2. Non-habitable floor levels: Garage, shed, laundry, public toilets/sporting amenities to have floor levels at the 1% AEP flood level (RL 4.79m AHD) or at least 300mm (desirable 500mm) above surrounding finished ground level. Materials, equipment and/or contents are not to be stored below the FPL unless they are flood compatible, capable of withstanding the forces of floodwater, debris and buoyancy, and not prone to causing pollution or an environment hazard. (Refer to DCP 2022 Part 3.1.11.6.4).

3. The site pervious area to be 40% minimum of the total site area. Alternatively, the dwelling can be constructed as a bearers and joists type of structure to allow the overland water to flow and the site to function as a flood storage area.

These design details and any associated reports must be certified and included in the Construction Certificate. (Or the amended plans are to be submitted to the authority issuing the Construction Certificate).

- 2.4. No activity is to be carried out on-site until the Construction Certificate has been issued, other than:
 - a) Site investigation for the preparation of the construction, and / or
 - b) Implementation of environmental protection measures, such as erosion control and the like that are required by this consent
 - c) Demolition.

3. PRIOR TO ISSUE OF ANY SUBDIVISION WORKS CERTIFICATE

No Conditions

4. PRIOR TO COMMENCEMENT OF ANY WORKS

- 4.1. All conditions under this section must be met prior to the commencement of any works.
- 4.2. Appoint a Principal Certifier for the building work:
 - a) The Principal Certifier (if not Council) is to notify Council of their appointment and notify the person having the benefit of the development consent of any critical stage inspections and other inspections that are to be carried out in respect of the building work no later than two (2) days before the building work commences.
 - b) Submit to Council a Notice of Commencement of Building Work form giving at least two (2) days' notice of the intention to commence building work. The forms can be found on Council's website: www.centralcoast.nsw.gov.au
- 4.3. Erect a sign in a prominent position on any work site on which building, subdivision or demolition work is being carried out. The sign must indicate:
 - a) The name, address and telephone number of the Principal Certifier for the work; and
 - b) The name of the principal contractor and a telephone number at which that person can be contacted outside of working hours; and
 - c) That unauthorised entry to the work site is prohibited.
 - d) Remove the sign when the work has been completed.
- 4.4. Provide and maintain a garbage receptacle at the work site until the works are completed. The garbage receptacle must have a tight-fitting lid and be suitable for food scraps and papers.

4.5. Install run-off and erosion controls to prevent soil erosion, water pollution or the discharge of loose sediment on the surrounding land by:

- erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties, and
- diverting uncontaminated run-off around cleared or disturbed areas, and
- preventing the tracking of sediment by vehicles onto roads, and
- stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

4.6. Erect a temporary hoarding or temporary construction site fence between the work site and adjoining lands before the works begin and must be kept in place until after the completion of the works, if the works:

- a) could cause a danger, obstruction or inconvenience to pedestrian or vehicular traffic, or
- b) could cause damage to adjoining lands by falling objects, or
- c) involve the enclosure of a public place or part of a public place.

Note 1: A structure on public land or on or over a public road requires the prior approval of the relevant authority under the *Local Government Act 1993* or the *Roads Act 1993*, respectively.

Note 2: The *Work Health and Safety Act 2011* and *Work Health and Safety Regulation 2011* contain provisions relating to scaffolds, hoardings and other temporary structures.

4.7. Provide or make available toilet facilities at the work site before works begin and maintain the facilities until the works are completed at a ratio of one toilet plus one additional toilet for every twenty (20) persons employed at the site.

Each toilet must:

- a) be a standard flushing toilet connected to a public sewer, or
- b) have an on-site effluent disposal system approved under the *Local Government Act 1993*, or
- c) be a temporary chemical closet approved under the *Local Government Act 1993*.

4.8. Undertake any demolition involving asbestos in accordance with the *Work Health and Safety Act 2011*.

The person having the benefit of this consent must ensure that the removal of:

- a) more than 10m² of non-friable asbestos or asbestos containing material is carried out by a licensed non-friable (Class B) or a friable (Class A) asbestos removalist, and
- b) friable asbestos of any quantity is removed by a licensed removalist with a friable (Class A) asbestos removal licence.

The licensed asbestos removalist must give notice to the regulator before work commences in accordance with Clause 466 of the *Work Health and Safety Regulation 2011*.

5. DURING WORKS

- 5.1. All conditions under this section must be met during works.
- 5.2. Re-use, recycle or dispose of all building materials in accordance with the Waste Management Plan submitted with the subject application.
- 5.3. No fill other than that as indicated within the approved plans is permitted to be placed upon the site.
- 5.4. The principal certifier must ensure that building work, demolition or vegetation removal is only carried out between:

7.00 am and 5.00 pm on Monday to Saturday.

The principal certifier must ensure building work, demolition or vegetation removal is not carried out on Sundays and public holidays, except where there is an emergency.

Unless otherwise approved within a construction site management plan, construction vehicles, machinery, goods or materials must not be delivered to the site outside the approved hours of site works.

Note: Any variation to the hours of work requires Council's approval.

- 5.5. While demolition or building work is being carried out, all such works must cease immediately if a relic or Aboriginal object is unexpectedly discovered. The applicant must notify the Heritage Council of NSW in respect of a relic and notify the Secretary of the Department of Planning, Industry and Environment and the Heritage Council of NSW in respect of an Aboriginal object. Building work may recommence at a time confirmed by either the Heritage Council of NSW or the Secretary of the Department of Planning, Industry and Environment.

In this condition:

"relic" means any deposit, artefact, object or material evidence that:

- (a) relates to the settlement of the area that comprises New South Wales, not being Aboriginal settlement, and
- (b) is of State or local heritage significance; and

"Aboriginal object" means any deposit, object or material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of the area that comprises New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction and includes Aboriginal remains. To ensure the protection of objects of potential significance

- 5.6. Implement and maintain all erosion and sediment control measures at or above design capacity for the duration of the construction works and until such time as all ground disturbed by the works has been stabilised and rehabilitated so that it no longer acts as a source of sediment.
- 5.7. Keep a copy of the stamped approved plans on-site for the duration of site works and make the plans available upon request to either the Principal Certifier or an officer of Council.

- 5.8. Place all building materials, plant and equipment on the site of the development during the construction phase of the development so as to ensure that pedestrian and vehicular access within adjoining public roads, footpaths and reserve areas, is not restricted and to prevent damage to public infrastructure. Further, no construction work is permitted to be carried out within the road reserve unless the works are associated with a separate approval issued under the provisions of the *Roads Act 1993*.
- 5.9. No fill other than that as indicated within the approved plans is permitted to be placed upon the site.

6. PRIOR TO ISSUE OF ANY OCCUPATION CERTIFICATE

- 6.1. All conditions under this section must be met prior to the issue of any Occupation Certificate.
- 6.2. Construct the vehicle access crossing in accordance with the vehicle access crossing Notice of Determination issued by Council.
- 6.3. Locate all electrical fixtures (including meter box) and/or gas outlets associated with the proposed works at a minimum height of RL 5.29m AHD. Alternatively, all electrical outlets and fixtures located between RL 5.29m AHD (minimum floor level) and RL 4.79m AHD (1% AEP flood level) can be protected by a residual current device (safety switch).

These details and any associated reports must be certified and included in the Construction Certificate.

- 6.4. Obtain a satisfactory plumbing and drainage final inspection in accordance with the requirements of the *Plumbing and Drainage Act 2011*.

This condition only applies if installation / alteration of plumbing and / or drainage works are proposed (excludes stormwater drainage). This condition does not apply to swimming pool plumbing that does not physically connect / break into the sewer system.

7. PRIOR TO ISSUE OF ANY SUBDIVISION CERTIFICATE

No Conditions

8. PRIOR TO OCCUPATION OF THE MANUFACTURED HOME

No Conditions

9. ONGOING

- 9.1. Do not change the location of the Vehicle Access Crossing without prior written approval from Council.

10. PENALTIES

Failure to comply with this development consent and any condition of this consent may be a **criminal offence**. Failure to comply with other environmental laws may also be a **criminal offence**.

Where there is any breach Council may without any further warning:

- Issue Penalty Infringement Notices (On-the-spot fines);
- Issue notices and orders;
- Prosecute any person breaching this consent, and/or
- Seek injunctions/orders before the courts to retain and remedy any breach.

Warnings as to Potential Maximum Penalties

Maximum Penalties under NSW Environmental Laws include fines up to \$1.1 Million and/or custodial sentences for serious offences.

ADVISORY NOTES

- The following public authorities may have separate requirements in the following aspects:
 - a) Australia Post for the positioning and dimensions of mail boxes in new commercial and residential developments
 - b) Jemena Asset Management for any change or alteration to the gas line infrastructure
 - c) Ausgrid for any change or alteration to electricity infrastructure or encroachment within transmission line easements
 - d) Telstra, Optus or other telecommunication carriers for access to their telecommunications infrastructure
 - e) Central Coast Council in respect to the location of water, sewerage and drainage services.
- Carry out all work under this Consent in accordance with SafeWork NSW requirements including the *Workplace Health and Safety Act 2011 No 10* and subordinate regulations, codes of practice and guidelines that control and regulate the development industry
- Dial Before You Dig
Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial Before You Dig at www.1100.com.au or telephone on 1100 before excavating or erecting structures. (This is the law in NSW). If alterations are required to the configuration, size, form or design of the development upon contacting the Dial Before You Dig service, an amendment to the development consent (or a new development application) may be necessary. Individuals owe asset owners a duty of care that must be observed when working in the vicinity of plant or assets. It is the individual's responsibility to anticipate and request the nominal location of plant

or assets on the relevant property via contacting the Dial Before You Dig service in advance of any construction or planning activities.

- Telecommunications Act 1997 (Commonwealth)

Telstra (and its authorised contractors) are the only companies that are permitted to conduct works on Telstra's network and assets. Any person interfering with a facility or installation owned by Telstra is committing an offence under the *Criminal Code Act 1995 (Cth)* and is liable for prosecution. Furthermore, damage to Telstra's infrastructure may result in interruption to the provision of essential services and significant costs. If you are aware of any works or proposed works which may affect or impact on Telstra's assets in any way, you are required to contact: Telstra's Network Integrity Team on phone number 1800 810 443.
